# Working together, to create something unique

## Dental design by day. Invention by night

At VCAD, we are perfectionists committed to quality and precision. Our digital workflow eliminates the inconsistencies found in any traditional methods, promising with certainty the most accurate dental restorations possible

## Design with purpose and passion

Our aim is to ensure the best result for your patients. As technology continues to grow and evolve, we do as well. By merging new technology with our experience in dental industry, we are confident we will meet your needs and expectations.

## Ideas people want to spend time with

What Digital Smiles team comprehends to be of essence in every case is the need for a high level of communication between each team member involved. From the dental designers to the laboratory, the clinician and the surgeon, the same files must be available and ready to be accessed at a moment's notice.

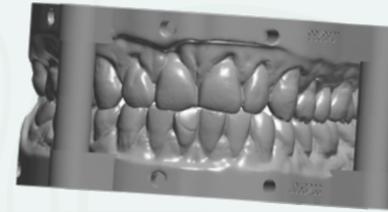

## MODEL

A critical foundation for success in digital dentistry is a preparation and marginating teeth for CAD design and restorations.

# What Our Customers Say

RATED ON

5.00

**“Friendly”**

Hi guys the fit was very good !  
Occlusion was slightly high, maybe my bite  
is wrong. But overall very happy.

**Matt Rogers**

**“Not painful”**

The crowns designs looked great! Yes I was  
very happy with the quality!

**Ms Liz**

**“Very Gentle”**

The implant bridge pmma fit perfect on  
the patient.
